

## COMPETITION IS STILL IN FORCE

James J. Hill Again Before Stanley Committee.

OPPOSES CONTROL OF PRICES

Rail Magnate Declares if Federal Government Ever Attempts to Control Business to the Extent of Fixing Prices It Will Be the Beginning of the End of This Government.

Washington, Feb. 14.—James J. Hill told the Stanley steel investigating committee that if the federal government ever attempted to control business to the extent of fixing prices it would be the beginning of the end of this government. He declared that corporate combinations, properly regulated within certain defined limitations, menaced neither the welfare of the people nor the integrity of the government.

Mr. Hill took issue with the recommendations of E. H. Gary, Andrew Carnegie, George W. Perkins and others prominent in the financial world that laws should be passed providing for governmental supervision over interstate corporations to the extent of fixing either maximum or minimum prices.

He insisted that with the possible exception of the Standard Oil company "no overgrown corporation" in this country had ever been successful. He added that the principle of competition in business would prevail as long as the law of the "survival of the fittest" operated and he predicted that that law in all probability would continue as an active force forever.

Mr. Hill did not dwell at length on his views relative to governmental control of corporations. He made a few observations on the subject at the conclusion of a five-hour hearing before the Stanley committee which had summoned him to testify relative to the alleged affiliation of interests between the Hills and the United States Steel corporation. Mr. Hill was about to quit the stand when Representative Beall of Texas, a Democrat, asked this question:

Texas Asks Direct Question.

"Judge Gary, Mr. Carnegie and others have told us that the age of competition has passed. That the time is not far distant when some agency of government must be established for the closest kind of regulation, including the power to fix prices. What is your opinion about that?"

"The age of competition has not passed," replied Mr. Hill. "It will not pass until you eliminate the selfish motives that move men in this world. If the federal government should undertake the sort of regulation that you suggest there would soon be no federal government."

"Suppose," suggested Chairman Stanley, "that you and other financiers came to exercise complete domination over industry in this country and were allowed to run it without restriction, and the rest of society, including labor, became dismembered and unable to check such a combination, how long would the government last under such circumstances?"

"I think it would last about a week," responded Mr. Hill.

The railroad builder went on to say that he would let corporations flourish.

"Do not fear them on account of their size," he said. "But don't let them overcapitalized. When they put \$1 into property see to it that it is a 100-cent dollar."

"You tried to organize the railroad world, did you not?" asked Representative Bartlett of Georgia, referring to the dissolution of the Northern Securities company by decree of the United States supreme court. Mr. Hill smiled broadly.

"I was in a tight place then," he said. "But you know what happened in that case."

Mr. Hill's testimony covered a wide range. He insisted that the Hill ores in the Mesabi country were of great value, of more value now than when they were taken over under lease by the steel corporation.

## INCREASE TAX ON LUXURIES

Chemical Bill Would Reduce Tariff on Necessities.

Washington, Feb. 14.—The Democratic chemical tariff bill, made public by the ways and means committee of the house, is expected to increase the government's revenues by \$3,530,840 over those of the present fiscal year, although the reduction of ad valorem duties proposed is about 31 per cent. Principally the measure increases duties on perfumes, fancy soaps and other luxuries and lowers the duties on drugs and materials in common use.

The Democrats will caucus on the measure and probably it will be introduced in the house Saturday.

## MINNESOTA RAILWAY WRECK

St. Paul, Feb. 14.—Minnesota in 1911 had 154 railway wrecks, causing death to twenty-seven persons and serious injury to 271 others, according to statistics compiled by D. F. Jurgenson, engineer for the state railway and warehouse commission. Of the persons killed eighteen were railway men and nine passengers. There were 152 railway men injured and 119 passengers.

## LA FOLLETTE TO RENEW CAMPAIGN

Will Begin Speechmaking Again Within Short Time.

CLOSE FRIENDS URGING REST

Wisconsin Senator's Secretary Says La Follette is as Much in Earnest as Ever—Assuring Messages Being Sent Out to Followers in West and Middle West—Progressives Anxiously Await Statement From Colonel Roosevelt.

Washington, Feb. 14.—The progressive Republicans still are disturbed by the activities of Senator La Follette. He is a subject of daily conference. His closest friends are urging him to take a rest of several weeks and go away for a sea trip. But there are forces at work to prevent the senator from enjoying even this temporary retirement from politics.

Assuring messages are being sent out daily to his followers in the West and Middle West, which carry the information that the senator will be in the field again in a few days. His secretary, John Hanna, said that Senator La Follette would renew his speechmaking within a short time and that he was as much in earnest as ever in his candidacy.

When the attention of some of the progressive senators who have been supporting La Follette was called to this statement they said that they understood that Senator La Follette was to go away for a rest.

Representative John J. Esch of La Crosse, Wis., made a statement. He declared that while Senator La Follette's illness "eliminated" him as a candidate the state of Wisconsin would instruct its delegates to vote for him "as a matter of state pride." Mr. Esch said that he was not prepared to say how these delegates would vote after they had complimented Senator La Follette. This view seems to be shared by most of the Wisconsin representatives in congress.

Shy at Chicago Organization.

The progressive Republicans in Washington are not ready to accept the organization in Chicago, headed by Alexander H. Revell, and of which Edward W. Sims is secretary, as the official national body to direct the Roosevelt campaign. This does not mean that there is any lack of harmony among the Roosevelt boomers, but there is a feeling here that the Chicago organization, which sprang up spontaneously, is too local in its genesis and personnel to be adopted as the national directing body.

Progressive Republicans here realize that they are losing much valuable time and great pressure is being brought to bear to secure an early declaration from Colonel Roosevelt, to be followed immediately by a national campaign organization.

Some of the progressives are unwilling to wait for Colonel Roosevelt's speech at Columbus on Feb. 21 for an answer. They believe that every hour is precious and that the Taft managers are going forward with the work of reorganization and that if Roosevelt is to be put forward as a candidate the work of organization should not be delayed. They admit that it will be difficult to make much progress with an organization until they have some definite assurance that Roosevelt is willing to accept if nominated.

"It will not require many words to clear the situation," said a progressive senator. "If Colonel Roosevelt will simply say that he is not a candidate and will not take any active part in promoting his candidacy, but that he will accept if nominated, that will be all that is necessary."

## BOTH SIDES ARE PLEASED

Congressional Inquiry Into White Earth Land Affairs.

Detroit, Minn., Feb. 14.—Both the government and the anti-government forces claim a killing in the congressional investigation into White Earth Indian reservation affairs.

Gus Beaulieu, Attorney Fred Dennis, Attorney R. G. Powell, representative of the Nichols-Chisholm Lumber company, and others of the "opposition" declare that the department of justice failed to show irregularities in the allotment of White Earth timber lands on "allotment day," April 24, 1905.

Judge M. C. Burch, for the department, and his collaborators assert with equal emphasis that they have shown, through revelations in the testimony of a clerk in the agency when the allotments were given out, that the essential principle of fairness under which the tracts were to be awarded was violated, making the whole proceeding irregular.

Mother Burns Baby in Stove.

Halifax, N. S., Feb. 14.—Mrs. Ada McCarren put her five-weeks-old baby in the stove and burned it to death, according to a confession which the police say she made when arrested on suspicion that she could account for the disappearance of her child, which had been missing for nine days.

## SECRETARY FISHER.

Another Cabinet Officer Will Visit Panama Canal.

## FISHER GOING TO PANAMA

President Desires to Have All Cabinet Members Visit Isthmus.

Washington, Feb. 14.—Secretary Fisher left for New York and will sail for Panama to make a three-week inspection of the canal.

President Taft desires to have all the members of his cabinet familiar with conditions on the isthmus. Secretary Wilson and Postmaster General Hitchcock are the only heads of departments who have not visited the canal. Mr. Hitchcock may go in the near future.

## ORIENTAL LIMITED DITCHED ON CURVE

Over Twenty Persons Injured in Great Northern Wreck.

Grand Forks, N. D., Feb. 14.—More than a score of persons were injured when Great Northern Oriental limited No. 2 was derailed midway between Doyon and Bartlett, fifty miles west of Grand Forks. J. S. Landis, roadmaster of the Minot division, who was on the train, reported to the division headquarters in Grand Forks that he could not determine the cause of the wreck and Conductor Edward Prentice, in charge of the wrecked train, made a similar report.

Two relief trains were sent to the scene of the wreck, one from Devils Lake, carrying twelve physicians, while another from Lakota carried two.

Engineer Prindle was the most seriously injured, both legs being broken, and he had also one arm broken. His fireman received internal injuries, but all the others are of a minor nature. Two mail clerks were hurt, one receiving several broken ribs.

The injured men were given medical attention in one of the Pullman sleepers, which was left standing on the track, the car being turned into a temporary hospital.

The wreck occurred on a curve, with a ten-foot embankment. The mail car, baggage car, smoker, day coach and two tourist sleepers were derailed, the baggage car being shunted across the embankment on a field, being left right side up thirty feet from the rails.

## IS NOW CHINGHWA REPUBLIC

Official Name for China Under New Government.

Washington, Feb. 14.—The Chinghwa republic is the official name of the new Chinese republic. Chinghwa means Chinese.

Formal announcement of the passing of the great Taching dynasty, which has ruled China for about 300 years, and the erection of a modern republic on its ruins was made at the state department by the Chinese legation.

The state department will instruct its officials in China to do business in a provisional way with Yuan Shi Kai in the north and President Sun in the south until a complete fusion of the two elements is effected, when the regular government of all will be recognized.

## MORSE STARTS FOR EUROPE

Pardoned Bank Wrecker to Go to Bad Nauheim for Treatment.

New York, Feb. 14.—Charles W. Morse, the bank wrecker whose fifteen-year sentence in the federal penitentiary at Atlanta was recently commuted on account of illness, boarded the Hamburg-American line steamer Kaiserin Augusta Victoria to sail for Europe. He will take the treatment at Bad Nauheim, in Germany.

## HONDURAS TO PAY DAMAGES

Will Reimburse Valentine Syndicate for Loss on Properties.

Washington, Feb. 14.—The Honduras government assured the state department it would reimburse the Valentine syndicate, a United States corporation, for any damage sustained to the corporation's railroad and wharf properties.

The acute situation growing out of the seizure of the property by the Honduras government has abated and the United States gunboat Petrel has left Honduran waters for Bluefield, Nicaragua.

## PLANNING FOR PARCELS POST.

Legislation to Be Tacked Onto Appropriation Bills.

FOR ELEVEN POUND PACKAGES

Twenty-five Pound Packages on Rural Routes—Legislation For Railway Mail Clerks—How Democrats May Capture the Senate—Senator Owen's Indian Name.

By ARTHUR W. DUNN.  
Washington, Feb. 14.—[Special.]—The Democrats are going to take advantage of the rule adopted to secure economy in public expenditures to legislate extensively on the appropriation bill for the postoffice department.

There will be a compromise on parcels post legislation. It is proposed to reduce the rate from 16 to 12 cents a pound and increase the size of the packages that may be carried from four to eleven pounds, as now allowed in dealing with foreign countries. Parcels post at a low rate and for twenty-five pound packages is to be established on rural routes.

It is also intended to legislate for the benefit of railway mail clerks, whose complaints have been many.

How They Will Do It.

There is an iron rule against legislation in appropriation bills, but the so-called Holman rule has been adopted by the Democrats, which allows legislation if it will reduce expenditures. The Democratic members of the house postoffice committee are prepared to show that economy will result in increasing revenues by this proposed legislation. But they will have to get a presiding officer, or, rather, Champ Clark will have to appoint one, who will see it the same way.

A Marvelous Change.

A few years ago when the Republicans dominated the senate by two to one it looked as if the Democrats would never get control of that body, but they are within reaching distance now. This change has been brought about by marvelous changes in states. There are now two Democrats from each of the states of Indiana, Maine and West Virginia, which were represented by two Republicans a short time ago. There is one Democrat from New York, New Jersey, Ohio, Nebraska, Montana and Oregon in the place of Republicans. Another landslide like that of 1910 and the Democrats will take over the senate.

The Lincoln Memorial.

It is possible now that the memorial to the great Lincoln is not to be made a real estate speculation either to boom the property of people in Washington or those residing along a highway leading out into the country. The great memorial was rendered partly valueless by being hidden behind trees where it cannot be seen. It is fortunate that the Lincoln commission will not consent to a similar mistake.

A Real Groundhog.

It was on groundhog day that Senator Owen remarked that his Cherokee name was Onalsata, which translated into English was Groundhog, a name which his mother gave him because he was born on the 2d of February. The Oklahoma senator is part Indian.

Enjoying Their Screams.

One hears nothing but joyous chorales in the press gallery as the Democrats run the steam roller over the Republicans of the house. For sixteen years they have seen the Republicans handling the roller, while the Democrats were the victims. It is most amusing to hear Jim Mann, John Daboll, Seneca Payne and even Uncle Joe Cannon scream "Gag rule!" "One man power!" and give vent to other exclamations when the Democrats apply their own former methods to accomplish results.

There was a "discharge rule," meant to allow a majority to bring a bill out of a committee for consideration. Mann made it inoperative, used it to obstruct legislation and filibuster, and the Democrats simply put that rule where it could no longer trouble them. And Mann denounced them in bitter terms.

Mighty Good Hash.

Senator McCumber of North Dakota not long ago had a caller from his home state hailing from a point not far south of the Canada line. Knowing of the yeoman service given by the hardy frontiersman in bygone campaigns, the senator determined to extend to him the best entertainment that cordial hospitality could suggest, and, among other things, he invited him to join in a repast at a noted restaurant in which diamond backed terrapin was the "piece de resistance."

"My friend had a normal North Dakota appetite," said Senator McCumber, "and seemed thoroughly to enjoy his dinner. But he made no comments on the undoubted excellence of the bill of fare, and I confess I was rather disappointed. Just as we were about to leave, however, he caught sight of the amount of the check as I was paying the waiter."

"Look here," he said, "do you mean to tell me that they charged you for that for what we had to eat? Why, it's robbery. I know that was mighty good hash, but I could buy a barrel of it for \$10 in North Dakota."

Monkey Leather.

Monkey leather is of a dark golden brown hue and is as strong and durable as crocodile skin.

## SENATOR LEA.

Will Present Minority Report in Stephenson Case.

## DELAYS STEPHENSON VOTE

Senator Lea Wants Minority Report in Before It's Taken.

Washington, Feb. 14.—When Senator Heyburn sought to obtain unanimous consent to vote on next Tuesday on the election committee's report exonerating Senator Stephenson of Wisconsin Senator Lea of Tennessee objected.

Mr. Lea stated that the report of the minority had not been completed and added that when it was ready he would consent to the fixing of a time. He promised the report by Thursday or Friday.

## REVOLT IN MEXICO SPREADS RAPIDLY

Rebels Show Activity in Large Number of Districts.

Mexico City, Feb. 14.—The spread of rebellion in Mexico is shown by dispatches received here. The rebels have overrun the Laguna district in Coahuila and have appeared in the states of Durango, Zacatecas and Guanajuato. In the South the Zapatistas continue their campaign of pillage and in Guerrero followers of Jesus Salgado are showing remarkable activity.

In Chihuahua, Antonio Rojas and Braulio Hernandez continue to evade government troops.

General Orozco has persuaded the rebels at Casas Grandes to quit fighting.

The consuls in the city of Durango, capital of the state, sent messages to their diplomatic representatives in Mexico City appealing to them for additional military protection.

In the state of Zacatecas, in many instances, the mobs commit their depredations to the cry of "Vive Zapata."

## NEW TREATY WITH RUSSIA

Effort Will Be Made to Replace Abrogated Agreement.

Washington, Feb. 14.—Negotiations soon will begin for a new treaty with Russia to replace the convention of 1832, recently abrogated, the operation of which will expire at the end of the present year.

Preliminary exchanges have encouraged the belief that any feeling which may have resulted from the denunciation of the old treaty has so far abated as to justify an effort to replace it.

An effort will be made to construct the new treaty so that it shall be a model in the framing of international agreements for the regulation of trade and commerce. The real difficulty is expected to be encountered in drafting a substitute for the article in the existing treaty regarding rights of travel and residence, which involves the troublesome passport question.

## 1,500 BULLS ON RAMPAGE

Herd in Portugal, Released by Fire, Injures Many Persons.

Lisbon, Portugal, Feb. 14.—Fifteen hundred fighting bulls, under training for the arena at the bull breeding establishment at Villa Franca, ran amok after fire had destroyed the ranch buildings.

The animals dashed through the country districts, trampling down everything in their path. Many persons were seriously injured.

Finally the herd was driven toward the river Tagus, into which they jumped and over 1,000 of them were drowned.

## ROOSEVELT TO MAKE REPLY

Will Answer Letter of Governors Asking if He Will Accept.

New York, Feb. 14.—"I have received a letter from the eight governors sent to me from Chicago, said Theodore Roosevelt, "and I am giving it my careful consideration. I shall reply to it within a short time, probably within a week. Until that time I can say nothing on the subject."

## INSISTS COLONEL WILL KEEP OUT

PORTO RICO TRADE GROWS

Commerce Nearly 1800 Per Cent Greater Than Before Annexation.

Washington, Feb. 14.—Trade between Porto Rico and continental United States in the calendar year just ended amounted to \$72,000,000, or eighteen times as much as in 1899, the year preceding the annexation of that island by the United States. The precise figures of the trade with Porto Rico are as follows:

Merchandise sent to Porto Rico, \$36,793,646; received from Porto Rico, \$35,446,186; a total of \$72,239,832. In 1897, the last year in which Porto Rico was foreign territory, the figures were: Exports thereto, \$2,023,751; imports therefrom, \$1,943,251; a total of \$3,967,002. Thus shipments of merchandise to the island gained in the period from 1897 to 1911, \$34,769,895, or about 1720 per cent, while receipts of merchandise therefrom increased \$33,502,953, or 1725 per cent.

## NATIONAL LEAGUE SCHEDULE

Provides for the Usual Number of Games.

New York, Feb. 14.—The National league baseball schedule for 1912 was adopted and made public at the meeting of the league club owners here. The schedule provides for 154 games as usual, but the season will be three days shorter than last year, beginning one day earlier and closing four days earlier. The season will open April 11, New York at Brooklyn, Philadelphia at Boston, Pittsburgh at St. Louis and Chicago at Cincinnati. The season closes Oct. 8.

## RAID JACK JOHNSON'S HOME

Secret Service Men Seize Alleged Smuggled Necklace.

Chicago, Feb. 14.—Secret service agents raided the home of Jack Johnson, the negro pugilist champion, and seized a \$5,000 diamond necklace which, it is charged, was smuggled into this country. It is said that if Johnson redeems the stones he will have to pay \$12,000 in duty and penalties. According to the government agents Johnson attempted to reach a settlement with the government and offered \$1,000 for the release of the jewels. This was refused. No criminal charge has been made against the colored champion.

Gus Ruhlin Is Dead.

New York, Feb. 14.—Gus Ruhlin, famous a decade ago as a pugilist, conqueror of Tom Sharkey and other men of lesser note, died suddenly in his cafe in Brooklyn as the result of a stroke of apoplexy.

Congressman Kent to Retire.

Sacramento, Feb. 14.—Congressman William Kent of the Second California district announced his retirement from congress. It is understood Kent's private business demands his entire attention.

Carried Off Dickens' Debris.

Everybody knew Dickens. He could not dine in public without attracting attention. When he left the dining room his admirers would descend upon his table and carry off eggshells, orange peels and other things that remained behind so that they might have memorials of this great and much loved writer.—Munsey's.

## Secretary MacVeagh Opens Taft Campaign in Washington.

PRaises Chief Executive

Cabinet Officer Asserts Former President Roosevelt Placed Himself Out of Race by Declaration of 1904—Says Unauthorized Roosevelt Movement Is Latest Scheme of Several to Defeat President Taft.

Lansing, Mich., Feb. 14.—Franklin MacVeagh, secretary of the treasury, firing an administration pre-convention campaign gun here at the annual dinner of the Zach Chandler Republican club, where he was the chief guest, came out flatly with the expressed belief that Theodore Roosevelt "would not—and with his makeup, could not—run against Taft" for the Republican presidential nomination this year.

Secretary MacVeagh confined his confidence to the present contest, however, intimating that there might come a time when the former president would be justified in re-entering a presidential race. Averring that Colonel Roosevelt had placed himself out of the presidential area by his declaration of 1904 the secretary said:

"It may be difficult to explain away the present appearances created by Roosevelt's silence and the volubility of his insurgent visitors; but that, to my mind, is not so difficult as it is to believe that Roosevelt would accept a nomination this year under any circumstances. For it must be admitted that nothing short of a national crisis—such as may come in the future but is not within the range of sane imagination now—would ever be accepted as justification for such a change of front—and this Roosevelt must know."

Calls Progressives Reactionaries.

The secretary of the treasury undertook to define "what is progressive," giving to President Taft that title and calling the Republican progressives reactionaries. His conclusions regarding Republican progressives were epitomized in these words:

"We have today a progressive administration and a progressive president; and we have a reactionary opposition within the party—reactionary notwithstanding the honest belief of those who are carrying it on that they are progressives and not reactionaries at all."

Mr. MacVeagh argued that there were various kinds of progressives. One set, he said, put their weight upon agitation and education, another upon legislation and achievement. Both he regarded as necessary to progress.

The North Side Crochet club held its first meeting yesterday afternoon, at the home of the president, on North Fourth street. Following the election of officers and the usual routine business, the instructor gave a brief but interesting history of the development of this art, several chic Parisian stories revealing the romances frequently intertwined with the spidery thread. During the course of the afternoon various members entertained their co-worker with a syncretical discourse on religious and social problems now occupying the attention of press and pulpit. Due to the fact that the instructor feels that more can be accomplished if the ladies keep the class within a limited number, the names of the members will remain secret for the present although one or two of the season's brides may look forward to the pleasure of sharing the aesthetic culture of this exclusive circle. The second meeting of club will be held next Tuesday afternoon at the home of the secretary on Juniper street. The subject of discussion for the afternoon will be "The Influence of Modern Literature on Sociological Problems."

### HOS. VAN LEAR'S LABOR ADDRESS

Business Agent of Great Northern and Northern Pacific Machinists of District Spoke

### ANY LADIES ATTEND MEETING

Be a Unit in Expressing Your Political and Industrial Ideas," Said Mr. Van Lear

Thomas Van Lear, of Minneapolis, business agent of the machinists of the Northern Pacific and Great Northern railways of this district, spoke to a large audience of railway men and foundry men and their wives and the Womens Union Label League at the Citizens State bank all Tuesday evening.

"Get together and organize and be a unit in the expression of your ideas, industrially and politically," as the key note of Mr. Van Lear's address. In addition to being a good organizer and high in the councils of organized labor, Mr. Van Lear appeared into prominence when he made a run as mayor of Minneapolis in the public ownership party ticket and polled so many votes that he astonished the two old parties. It is so being heralded that Mr. Van Lear may be the nominee of the public ownership party for governor at this year's election.

Alderman Henning presided at the meeting and announced the first number, a selection by the Blue Ribbon orchestra. Robert Crust sang a solo and the Imperial Quartette rendered two selections. J. A. Swanson sang a solo.

Alderman Henning in introducing the speaker said that organized labor has passed through successive periods each requiring different leaders and that as the disputes between labor and capital wax more intense the situation sometimes becomes critical, organized labor needs strong men to guide it. The northwest has one of these leaders, Thomas Van Lear, and he took pleasure in presenting him to his audience.

Mr. Van Lear expressed pleasure in having the opportunity to speak to a Brainerd audience. He always liked to talk on a subject that he knew something about. He remembered on one occasion a minister asked him to speak and he said that the subject was to be about "the evil I know" he could give quite a discourse, but if it was to be about the devil I don't know" he left it to the minister to expound. So tonight he was to speak about some of the evils we have in common, every day life. The workmen must get their heads together to work out their own salvation. At one time there was a debate about wood block paving in the Minneapolis city council. It resolved itself into a strenuous argument and each side seemed to be drifting farther away from a solution of the vexed question. At last one member arose and frantically signalling the presiding officer, he said:

"Mr. Chairman: This whole matter is out of order. If the committee only get their heads together we'll have some good wood block paving."

"Every man and woman working for a living should be bound up in the labor movement," continued Mr. Van Lear. "There are many outside of the ranks of labor because they do not know enough about the aims and objects of organized labor. There are great questions in government to be solved and if the workers do not organize and act as a unit they will be lead into a blind alley. Some do not wish to join a union because they begrudge paying the small dues of a local. A toiler as a rule gets 17 cents out of every dollar of wealth that he produces. If it were not for the organization of labor the workmen would be at the mercy of large corporations. The corporations are not as black as they are painted only because organized labor prevented them from being so."

"Do you think the Muscatine button factory owners are the only ones who want to grind down labor? Are they the worst people in civilization?"

### HAVILL IS FOUND GUILTY

Special to Dispatch:— Little Falls, Feb. 14.—The jury in the case of the State of Minnesota against O. H. Havill, indicted for receiving deposits when the bank of Bowls was insolvent, returned a verdict last night at 9:15 of guilty as indicted. Today at 2 o'clock R. V. Brower, attorney for Havill, gave notice of a motion for a new trial to be heard at an adjourned session of court, March 12th. Sentence was deferred until then and the defendant was released on \$2,000 bail.

They ground down the button employees because they thought they had a weak, puny organization. Women and children are generally at work in the factories. They have done everything possible that can be recorded to break up their union.

"Some churches have taken up social work for they commence to believe that a good body is required to house a good soul. We need the organization of men and women, of women even more so than men. We're figuring now on giving them the ballot. The socialist party believes that women should be entitled to the franchise as well as the men. There is no question about a woman getting the ballot. There is nothing in the life of a woman that she does not get if she wants. Fifty years of mistakes on the part of the men who voted have brought us to the industrial conditions of today. Women cannot do worse when they vote."

"Do you think women would not throw some protection around the girl who works? Do you think women would permit the organized white slave movement, the buying and selling of girls into lives of sin, organized since men have had the ballot and giving contributions to campaign funds? Woman armed with the ballot would not permit this traffic in human flesh. There was black slavery in the south, but this white slavery of the present day is infinitely worse."

"What do we get from congress? Investigations, and the reports in many cases are never published. At Lawrence, Mass., the home of protected industry where schedule K works over time, we see men and women on strike. Men and women average \$6 a week, little girls \$3 and \$4 and little boys \$2.50 per week in wages. The tariff keeps the pittance in wages at the \$2.50 level and the bayonets of the militia see that the wages do not go any higher. "Capitalists" want a labor organization to be nothing more than a grave yard, funeral and memorial society. Regardless of the tools we work with or what part of the shops we work in we must stand together. Not radically but slowly and gently we must get working people to pull together. We must bring all our people together to get concerted action. To the extent that we are powerful, in that ratio is the necessity of striking removed. If we gather enough power, strikes will be a thing of the past."

"We had an experience in Minneapolis last year when the workers filed their objections at one and the same time and 11,853 votes were recorded. First we were called idle dreamers and when we woke them up they sized us up as a nightmare."

"A protest voiced by one man is not heard. But if you get 100 people of a town of 200 people to express an idea, that idea will be put into force and it will be listened to with respectful attention. Voting right is not everything. To be industrially right and not politically leaves you still in a bad situation."

"Get together, organize and be a unit in the expression of your ideas, industrially and politically."

### BOUND OVER TO GRAND JURY

Gust Krackle, Alias T. J. Smith, Accused of Forgery in the Second Degree

### HEARING TUESDAY AFTERNOON

Using Counter Checks of a Local Bank Karckle is Alleged to have Signed J. McMannis' Name

Tuesday afternoon Gust Krackle, alias T. J. Smith, had a hearing in the municipal court on the charge of forgery in the second degree and from the evidence presented Judge J. H. Warner ordered the man bound over to await the action of the grand jury.

Krackle, it appears, is alleged to have forged the name of J. A. McMannis residing west of Brainerd, to a number of \$25 checks which Karckle had made out payable to T. J. Smith and to which he signed the Smith name. Counter checks were taken from the Citizens State Bank desks and the words "counter checks" were cut off. The signature of McMannis was well imitated and Karckle appears to have had no difficulty in disposing of several of these \$25 checks when he made small purchases about town on Saturday evening.

He is a man of about 30 years of age, wears a tan overcoat and a black derby hat and is methodical and business like in appearance. It is said he had previously met McMannis and talked to him about selling blooded cattle and that he had McMannis sign his name in his address book as a reference. When disposing of checks he told one storekeeper he had sold McMannis some beef and he told another he had sold the West Brainerd man a heater.

### SCORES OF LABOR L ADERS ARRESTED

Special to Dispatch:— Chicago, February 14.—Arrests in the dynamiting conspiracy case, on indictments returned at Indianapolis were made today in this city, New York, Indianapolis, Philadelphia, Cincinnati, Scranton, Pa., Syracuse, N. Y., St. Louis, Milwaukee, Springfield, Ill., Duluth and elsewhere. In nearly every instance the labor leaders taken into custody were officers of the International Association of Bridge and Structural Iron Workers.

### NISKALA ESTATE FORTUNATE

Attorney G. S. Swanson Secures Compromise of Claim with N. P. Ry. at \$4,050

Through the efforts of their attorney, G. S. Swanson, the Niskala estate receives \$4,050 from the Northern Pacific railway. The compromise was brought about by Mr. Swanson and accordingly the intended suit for damages will be dropped.

About September 27, 1911, William Niskala, while working in the car shops, is alleged to have been crushed to death on account of the negligence of the company. The man was taking out some blocking from the car wheels and when the switch engine backed up suddenly he was caught under the wheels and life was crushed out immediately. The claim for damages was made by the estate and a settlement was speedily secured.

### ROADS TO FIGHT FIRES

Brainerd Meeting of Foresters and Railway Men Results in a Novel Organization

As a result of the conference between railroad officials and State Forester W. T. Cox, of St. Paul and his assistants at this city Saturday, an association will be formed among operating officials of the sixteen roads which traverse the northern part of the state, to co-operate for fire protection during 1912.

The president of each road will designate a superintendent of some division as a member of the organization. Meetings will be held monthly, or as often as needed, to discuss what each road is doing and exchange ideas on the best means of preventing and controlling forest and prairie fires.

"So far as I know," said Mr. Cox in an interview at St. Paul, "this is the first organization of the kind in the United States."

### HURRY FOR FINAL PAPERS

February 27 is the Last Day for Making Petition for Final Citizenship Papers

February 27 is the last day for making petition for final citizenship papers and any would be citizen who wants to vote at the coming fall elections for county, state and national nominees must make his petition before Tuesday, February 27.

This allows these petitions for citizenship papers to be heard at the May term of court, otherwise the matter goes over to the December term of court and one misses his chance to cast a vote for a president, governor, sheriff and other officials.

### CHICKEN RAISING PAYS IN BRAINERD

William A. Eastling, 923 Holly St., Got 530 Eggs From His Chickens in January

### GOT \$10 FOR BLOODED ROOSTER

His Poultry Yard and Houses are of the Most Approved Design and Give Results

To have 30 hens lay in the month of January and produce 530 eggs in the record made by William A. Eastling's chickens. This is thought by Mr. Eastling to be a record for Crow Wing county as well as the state of Minnesota.

At his home 923 Holly street Mr. Eastling has erected spacious buildings to house his chickens and the yard and buildings are of the most approved design and certainly assist in giving the desired results. Out of a setting of 13 eggs Mr. Eastling recently reared 11 little chickens.

His pens are mainly Rhode Island Reds and they have made a record in this county by laying continuously the year around. The month of January was certainly the coldest month since the weather bureau commenced taking temperature in the state, but it did not phase his little Rhode Island Red hens, which scratched away industriously and had sense enough to lay eggs when the market was high. Sol Markee examined the chickens and recently purchased a big rooster, paying \$10 for the beauty.

This week Mr. Eastling added two full blooded Rhode Island Red roosters to his pens. Every one who has seen his chickens declares them the finest in the county and as chicken raising is a hobby with Mr. Eastling to which he gives all his attention except when working at the shops, he is glad to have people call and see the poultry and the quarters he has provided for his feathered tribe. In addition to selling chickens and eggs, he also has for sale settings at a reasonable price. By May 1 he will be able to sell young chickens.

### RESULTS THAT REMAIN

Are Appreciated by Brainerd People Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one special kidney medicine that cures permanently and there is plenty of proof here in Brainerd.

Here is the testimony of one who used Doan's Kidney Pills years ago, and now states that the cure was lasting.

Mrs. John L. Nelson, 309 Quince St., Brainerd, Minn., says: "About two years ago we used Doan's Kidney Pills and found them so effective that we publicly endorsed them. They brought relief from pains in the back and head and other distressing symptoms of kidney complaint. The lapse of time has only served to increase our high opinion of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, sole agents for the United States. Remember the name—Doan's—and take no other.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

## MISS PECK TELLS OF TALL PEAKS

**Climber Is Back From South American Exploits.**

## SHE CONQUERED CORUNPUNA

Planted Suffrage Flag on One of Its Five Ice Summits Estimated at 22,500 Feet Above Sea Level—Her Experiences—Above Snow Line.

Miss Annie E. Peck, conqueror of altitudes, recently got back from South America after having unfurled and planted the yellow pennant of the Joant de Arc Suffrage league of New York on one of the five icy summits of Corunpuna in southern Peru, estimated to tower 22,500 feet above sea level.

Miss Peck left on June 3 for Colon and went thence across the Isthmus of Panama to Peru. Her chief object was to scale Corunpuna, supposed at one time to be the highest mountain in South America, but really lacking that distinction by several hundred feet. Miss Peck was accompanied by a German mountain guide, Carl Volkman, and, as she said, a "gentleman of Peru and four half breed Peruvians." She left the little village of Viraco for the mountain peaks on Monday. She said she could not remember the exact date.

"I am a cautious climber," Miss Peck said, "and I did not hurry toward my goal, knowing the folly of haste. I had trouble with the half breed guides, who are very superstitious."

## Perils Not So Great.

"After we had got well above the snow line, which we reached on the second day, they began to talk about turning back. I exhorted them not to leave me, appealing to their vanity and telling them that the glory would be theirs if they took me to the summit. They talked about the tradition that men going above a certain altitude on the mountain would be turned to stone and even if this did not happen, which I assured them was impossible, as I had been above that height on South American mountains with natives who never had been petrified, they might be gobbled up by a monster at the top of the mountain. I told them it was impossible for me to make the summit without their help and that I was depending on them. Then they gathered themselves together bravely and we went on."

"The perils of the ascent were less than those I encountered on Mount Huascaran. The half breeds said I was the first person they had ever heard of who had made an effort to reach the top—I should say the tops, for there are five peaks of about equal height—of Corunpuna. I wore no woolen mask, as I did on Huascaran, as the winds were less bitter. I merely had a silk cloth over my face. The frozen snow, glacierlike, was about a hundred feet deep."

"We went up the west side of the range and came down by the east side. I took a hypsometer to determine the altitude. Nobody in the village from which we went knew Corunpuna's altitude above the sea, so it was difficult for me to determine exactly the height of the peak we reached, but it was more than 22,000 feet above sea level. The barometers of Professor Bingham showed a height of 22,500. We were one week reaching the summit and spent two nights above an altitude of 20,000 feet."

"I am sure the mountains are of volcanic formation, as I smelled sulphur strongly on the summit, which we reached on Sunday, having spent one week on the trip up. I placed the suffrage flag on the highest point. It is, or was, only three feet long. I would have taken a much larger flag, but in mountain climbing the less impediment you have the better you get along."

"We had no trouble sleeping, but my guides slept more than I, as I was the cook of the expedition as well as the leader. I really had insufficient equipment and should have had a man with me to take observations. I was always two hours fixing the stove after the rest had turned in."

"We had no adventures worth mentioning. There was a little accident when we were a good way up, a pack containing a lot of necessary material slipping and rolling down the ice several hundred feet. We had to stop the ascent to save the pack."

**Whistling as Part of Church Service.**  
The Rev. William Burd, pastor of the Hillsdale (N. J.) Methodist church, will introduce a whistling club of twenty boys at the Sunday evening services. The club will whistle "Stand Up, Stand Up for Jesus" and "Wonderful Words of Life." All the boys are good whistlers and are being trained by the pastor. His wife will accompany the whistlers on the piano.

**Palestine.**  
When one thinks of the great events that have taken place in the Holy Land, the multitude of cities, villages and towns, the countless millions who have been born there and whose bones now lie in its rocky ribbed hills, the small dimensions of Palestine are almost startling. West of the Jordan, where most of the historic events took place, there are only 3,800 square miles, including all the geographical divisions now called Palestine. Including the land both east and west of the Jordan, the total area is 9,840 square miles. The length of Palestine from north to south is about 150 miles. It varies in breadth from twenty-three to eighty miles.

## ROOSEVELT ON SUFFRAGE.

**Let Women Have Ballot When They Want It, He Says.**

Let women vote as to whether they wish to vote or not is the advice which Theodore Roosevelt gives them and to the nation in the Outlook. He says in part:

"I believe in woman's suffrage wherever the women want it. I believe a referendum was held in Massachusetts, in which a majority of the women who voted voted in favor of the ballot. But they included only 5 per cent of the women who were entitled to vote, and where the vote is so light those not voting should be held as voting no. This was in 1895. It would be well worth the experiment again in Massachusetts and New York."

"Perhaps one reason why so many men who believe as I do in woman's full equality with men take little interest in the suffrage movement is to be found in the very unfortunate actions of certain leaders in that movement, who seem desirous of associating with it thoroughly degrading and vicious assaults upon the morality and duty of women within and without marriage."

Mr. Roosevelt declares he believes the movement for woman's suffrage will ultimately succeed and will justify itself. He ends the editorial with a homily on his favorite subject of race suicide.

## KEEPS TABS ON FRATERNITIES

**President Schurman to Compare Scholarship of Secret Society Men.**

A record of the scholarship standing of the thirty odd fraternities at Cornell is to be compiled by the university officials, and when the tabulation has been completed President Schurman proposes to make it public at a meeting of fraternity men.

For several years he has been endeavoring to raise the general scholarship standing of the fraternity students, of whom there are 1,000 in the university, by publishing at the close of each midyear examination period the list of those who lost no men because of scholarship deficiencies.

President Schurman thinks that a fairer and more comprehensive method will be to average the marks of each fraternity and make up his honor roll on the marks of the fraternity as a whole, on the theory that, while one fraternity may lose one or more men, the general average standing of the society may be higher than some fraternity which does not lose a man.

## Gold From Sea Water.

Credulous people who have put their money in various schemes for extracting gold from sea water will be interested in some statements by Henry S. Blackmore in Cassier's Magazine. Mr. Blackmore says he "collected some data several years ago, during which time some \$4,301 was expended by him and which resulted in securing some \$2 in gold from the waters of Long Island sound off New Rochelle, N. Y., and some \$10 in gold from the mud of East Chester creek, near Pelham bay, New York, there being about \$3,982 expended on the sea water investigation and \$379 on the mud."
